COST SHARE

GET PAID TO IMPROVE SOIL HEALTH & WATER QUALITY

Implementing soil health practices can reduce erosion and compaction, suppress weeds, increase water quality, and can also maintain or increase soil health and organic matter content.

Multiple Funding Options:

- Cost-share available for
 - Cover crops (single and multi-species options)
 - Residue and tillage management with or without liquid manure application
- Contract duration - 3 years
- Flat rate contracts
- SWCD staff will provide technical assistance during the planning and implementation process.
- We'll help connect you with vendors and contractors to make the process smooth and easy!

DON'T WAIT, CONTACT YOUR LOCAL SWCD OFFICE AND START PLANNING TODAY!
